

Your building systems have something to tell you...

SkySpark® speaks their language

Join us for a Lunch and Learn Seminar:

Analytics – Using Data to Improve Building System Performance and Reduce Costs

Boston Newton Marriott Hotel
December 5, 2017

*One of the hottest topics in energy management, building automation and sustainability is **analytics** – using data to identify opportunities to improve performance*

Like most “hot” topics that means there is a lot of hype, misinformation, and different views on what analytics is and the benefits it can provide.

SkyFoundry, the developers of **SkySpark®**, one of the established leaders in the field of analytics, is pleased to announce a FREE lunch and learn seminar to be held at the Boston Newton Marriott Hotel on Tuesday December 5, 2017. With over 13,000 buildings encompassing more than 1 Billion sq. ft. successfully using **SkySpark®** analytics, the SkyFoundry team promises to help expand your knowledge of analytics and answer your detailed questions.

Why You Should Attend:

- See the power of **SkySpark®** automated analytics in person
- Understand how to apply analytics to existing building systems and energy data
- Engineers and SI's - learn how analytics creates new business opportunities

Who Should Attend: The seminar is designed for Systems Integrators, Consulting Engineers, Facility Management, Sustainability and Energy Management Professionals.

Agenda:

Lunch will be provided for attendees from 12:00 – 12:45

The seminar will be conducted from 12:45 – 3:00PM on Tuesday December 5, 2017

Location: Boston Marriott Newton Hotel, 2345 Commonwealth Avenue, Newton, MA 02466
